

MAGNET SET

MODEL NUMBER : GOTT-MG-LX6162

*Picture only for illustration

DESCRIPTION

The Magnet Set is an educational learning kit designed to introduce students to the fundamental principles of magnetism and magnetic forces through practical, hands-on activities. It allows students to explore magnetic attraction and repulsion, identify magnetic and non-magnetic materials, and understand the basic behaviour of magnetic fields.

The set supports interactive learning and experimentation, helping students develop their understanding of magnetism through observation, testing, and practical demonstrations. It is suitable for classroom teaching, laboratory activities, and STEAM-based learning.

OBJECTIVES

To provide students with a hands-on learning tool to understand the fundamental principles and properties of magnetism through practical experiments and interactive activities. The Magnet Set enables students to explore magnetic attraction and repulsion, magnetic fields, magnetic materials, and the basic applications of magnetism in everyday life and technology.

KEY COMPONENT

[1] U-shaped magnet

[2] Bar magnet

[3] Big ring magnet

[4] Magnetic bar set

[5] Magnetic wheel set

[6] Small ring magnet set

[7] Magnetic compass

[8] Electromagnet coil

[9] Connecting wires

[10] Battery holder

[11] Metal balls & accessories

Manuals :

- (1) All manuals are written in English
- (2) Model Answer
- (3) Teaching Manuals

General Terms:

- (1) Accessories will be provided where applicable.
- (2) Manuals & Training will be provided where applicable.
- (3) Designs & Specifications are subject to change without notice.
- (4) We reserve the right to discontinue the manufacturing of any product.
